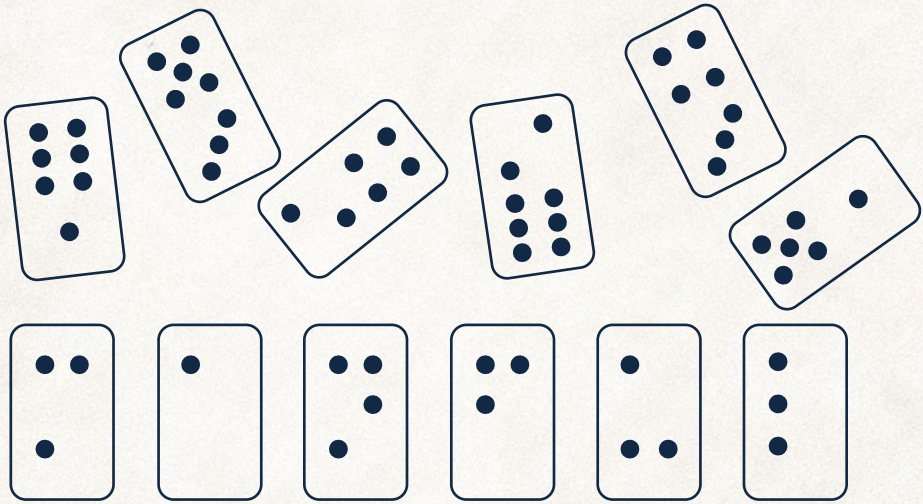
1. DOMINOES

You have been handed a piece of paper by Madame Pauline that appears to have 12 domino tiles on it.
Can you look closely and crack the code?



Answer: _____

Remember you don't need to crack this code immediately. Take your time, find a quiet moment and have your answers ready by the time you get to the end of your walk and report back to the Prime Minister.

Raise £50 to receive a printed version of these codes through the post.
